ALL TOPO MAPS: Wyoming Release-3 Full State Coverage! MSRP **\$88.⁰⁰**

7-CD set

1,889 1:24,000 scale; 77 1:100,000 Scale and 24 1:250,000 scale USGS & Forest Service topographic maps on CD-ROM

Viewing software - seaming & exporting tools - GPS Interface

iGage Mapping Corporation's latest full state coverage release 'Wyoming Release-3' includes high resolution, color images of all the USGS topographic maps for the State of Wyoming. Professional users, hunters, pilots and recreational users will enjoy instant access to all the Wyoming Release-2 maps using this definitive map reference source.

Over 260 new, updated maps are included in Release 3! Uniform Colors over entire State: Seamed maps will no longer suffer from mismatched colors!

ALL TOPO MAPS: Wyoming Release-3 includes all the maps, plus these easy to use software tools:

All Topo Map Viewer

Use the All Topo viewer to quickly find view, annotate, print and export the maps you need. Search by place, feature, Township/Range/Section or map name; 400+ levels of high-resolution zoom; easily export royalty free images and print portions or entire maps.

GPS Tool - transfer coordinates between the maps and your GPS receiver

The ALL TOPO MAPS: GPS Tool transfers waypoints, routepoints and trackpoints between your GPS and PC over the serial port. Mark waypoints on maps for transfer to your GPS or use your GPS to mark coordinates in the field and extract them onto the maps. Real-Time-Tracking plots your position as you travel. The GPS tool will help you organize your coordinates. Rated 'easiest to use' by Outside Magazine™

BigTopo map seaming tool

BigTopo quickly seams adjacent 7½ minute scale quadrangles together, removing collars and generating large area coverage maps. BigTopo maps can be exported (royalty free!) with georeferenced world-files for use with GIS and CAD applications. Build huge, full resolution topographic maps that completely cover your trip or project's area.

ALL TOPO MAPS has important **professional features** not available from other products: Search by Township/Range/**Section** to quickly find locations by legal description; Very High Resolution images without compression artifacts; royalty free image exports ready for export into professional GIS and CAD applications; Toll Free Support!
